## **No Information, No Charge**

It is bad enough to lose thousands of dollars to bad debt without then having to pay thousands of dollars to get a judgement that can never be executed against the debtor's assets.

Equifax Legal Reports can help you avoid this time-consuming and costly experience. Searching through our legal database is free of charge. A fee applies only when a record is retrieved.

## **Canadian Legal Reports allow you to:**

1. Check the plaintiff database to see who your competitors are suing.
2. If a supplier is being sued for faulty merchandise or other quality and administrative problems, you need to know this before entering into a long-term supplier agreement.
3. If you are purchasing a company, check the Equifax legal database to determine if there are any outstanding legal actions under this business name in Canada that could decrease the value of your purchase.
